SIGMAFAST™ HOLDS

Premium one-component cargo hold solution

One-component, fast-drying cargo hold coating – ideal for onboard maintenance

PPG's latest cost-efficient cargo hold coating, the *SIGMAFAST HOLDS* finish coat, is the perfect solution for dry cargo holds. It is fast drying, easy to clean and delivers good aesthetic appearance. This premium, one-component coating meets all inland marine demands, benefiting customers by increasing productivity, shortening overcoat windows and reducing time to first cargo.

Outstanding aesthetics – making it easier to clean and switch between cargoes

The good color and gloss retention of the *SIGMAFAST HOLDS* coating results in a highly aesthetic appearance. The coating is smooth and, therefore, easy to clean; consequently, ship owners and operators will profit from the improved maintenance efficiency and resulting faster return to service.

SIGMAFAST HOLDS – the fast and durable one-component solution

The *SIGMAFAST HOLDS* coating offers a complete, durable protective system for your cargo holds in just one coat, which reduces application time and eliminates overcoating time. The coating also improves efficiency even further due to its fast-curing properties.

Features

- One-component finish coat
- Excellent brush and roller application properties
- Dry-to-touch within 45 minutes at 20°C
- Available in redbrown (6179) and grey (5177 and RAL 7012)
- Food certification

Benefits

- Smooth, easy to clean coating – improved maintenance efficiency
- Good color and gloss retention – durable performance
- Quick drying – faster return to service
